Commissioner for Patents  
P.O. Box 1450  
Arlington, VA 22313-1450

Sir:

Attached is Form PTO-1050, suitable for printing. The corrections stated in the attached Form PTO-1050 recite the corrections stated below.

Below, column and line numbers refer to U.S. Patent Number 7,542,474 B2, titled "Method of and Apparatus for Providing Isochronous Services Over Switched Ethernet Including a Home Network Wall Plate Having a Combined IEEE 1394 and Ethernet Modified Hub," and issued June 2, 2009. Page and line numbers refer to the corresponding U.S. Patent Application Number 10/082,637.

**CORRECTION OF USPTO'S  
MISTAKES UNDER 37 C.F.R. § 1.322**

In the Specification

In Claim 6, at column 15, line 46, please replace “of traffics” with “of traffic” so that the corresponding clause reads

- a third interface configured for coupling to and communicating with the switching device, wherein the switching device sends a periodic signal which signals the start of a period having a first portion and a second portion, wherein only communications in the first protocol are allowed during the first portion and only communications in the second protocol are allowed during the second portion, and further wherein the second protocol is prioritized between a first set of traffic and a second set of traffic;

The text is shown correctly in the Amendment, as submitted March 20, 2009 on page 3 at line 17 of Claim 8.

Respectfully submitted,  
HAVERSTOCK & OWENS LLP

Dated: June 12, 2009
